PROFESSIONAL SUMMARY

Digital Transformation and AI professional with 5+ years at NEOM, leading the move from manual processes to digital, automated, and AI-enabled services. Took 100+ SAP SuccessFactors processes to full digitalization and 90% automation through AI agents, RPA, digital adoption, and system integrations, and now shapes NEOM's digital strategy. SAP SuccessFactors expert with a software engineering background; winner of SAP's Best HCM Automation and Innovation Award 2024.

CORE COMPETENCIES

- **Transformation:** Digital strategy, process optimization, process and SLA design, project leadership, vendor negotiation, Agile
- **Automation & AI:** AI Agents, Microsoft Copilot Studio, RPA, Power Automate, workflow automation
- **SAP SuccessFactors:** Employee Central (EC), org structures, legal entities, foundation data, Report Center
- **HRIS Operations:** System administration, configuration, data migration, data quality and integrity, approval workflows
- **Platforms & Analytics:** ServiceNow, OpenText, Userlane, SharePoint, Power BI dashboards

PROFESSIONAL EXPERIENCE

PEOPLE TECHNOLOGY SENIOR SPECIALIST | NEOM

Sep 2023 - Present

- Took 100+ SAP SuccessFactors processes from 56% to 100% digitalized and 19% to 90% automated, as assessed with SAP.

Digitalization, Strategy & Planning

- Shaping NEOM's 3-year digital strategy to stabilize the system landscape and reduce technical debt, with SAP SuccessFactors as the single source of truth.
- Built PeopleGPT v2, an AI agent on Microsoft Copilot Studio integrated with SAP Joule, now in pilot with users.
- Automated document handling with Power Automate, including End of Service archiving for Payroll and NDA filing ahead of OpenText integration.

Digitalization

- Developed a Digitalization Vision and Strategy from an analysis of 1,841 service requests, identifying 70% as automatable; approved and incorporated into NEOM's 3-year digital strategy.
- Led the BUPA insurance integration after the provider change, automating daily enrollment of new joiners and dependents.
- Led the automation of onboarding document filing in OpenText, routing each new joiner's documents to the right folder.
- Migrated survey data from Culture Amp to Medallia, and revamped PeopleHub (NEOM's HR knowledge base) with current content and simpler navigation.

People Systems

- Deployed automation bots across SAP SuccessFactors workflows such as bank details and End of Service, reducing manual handling of transactional processes.
- Built automated SAP SuccessFactors reports for stakeholders, feeding the Power BI dashboards used by leadership.
- Reduced SAP licensing costs by over 75%, from ~\$889K to ~\$200K over three years, after a detailed contract analysis.
- Received SAP's Best HCM Automation and Innovation Award at SAP HR Connect, Riyadh (Nov 2024).

PEOPLE TECHNOLOGY SPECIALIST | NEOM, People Technology

Sep 2022 - Sep 2023

- Built PeopleGPT, a Microsoft Teams AI assistant rolled out to 4,000+ employees, significantly reducing HR email inquiries.
- Implemented People Co-Pilot, a Userlane digital adoption layer guiding employees step by step through SAP SuccessFactors.
- Built SAP SuccessFactors legal entities for TONOMUS, OXAGON, and ENOWA in-house, including org structures, cost centers, and employee data migration.
- Led the automation of Tawuniya health insurance enrollment with RPA, sending new joiners and dependents to the insurer daily and removing manual spreadsheets on both sides.
- Led the OpenText implementation, moving employee documents from local storage to per-employee cloud folders.
- Selected for SAP Academy's Multi-Dimensional Engineer Course in Silicon Valley; recognized as a top performer, chosen as graduation speaker, and featured in SAP's program [video](#).

PEOPLE TECHNOLOGY ANALYST | NEOM, People Technology

Jun 2021 - Sep 2022

- Independently built SAP SuccessFactors for the new NEOM Authority sector, including org structures, cost centers, dynamic approvals, and employee data migration.
- Built data-quality dashboards for SAP SuccessFactors and set up validation rules to prevent recurring data errors.

- Replaced on-demand photographers with a self-service photo booth integrated with SAP SuccessFactors, leading vendor selection, negotiation, and integration.
- Managed 40+ VR headsets and 360° NEOM content used in employee onboarding and at job fairs to attract talent.

PEOPLE TECHNOLOGY INTERN | NEOM, People Technology

Mar 2021 - Jun 2021

- Managed the position structure in SAP SuccessFactors, including a company-wide cleanse ahead of an audit, and built reports to monitor data integrity.
- Conducted data audits to detect anomalies, and tested the first version of NEOS (now Community Life), NEOM's employee services app, suggesting enhancements.

EARLIER EXPERIENCE

SOFTWARE ENGINEER, FULL STACK | MISK ACADEMY, MCIT

Nov 2020 - Mar 2021

- Built full-stack applications (Django, Node.js, React, SQL, MongoDB) in agile teams over a 480-hour program.

IT MANAGER | CRYSTAL INSPECTION SERVICES

Oct 2019 - Jan 2020

- Ran the IT department; cut IT costs within three months by bringing it in-house and ending external contracts.

COLLABORATIVE INSTRUCTOR, COMPUTER SCIENCE | TOKYO UNIVERSITY OF TECHNOLOGY

Mar 2016 - Mar 2019

- Taught Computer Science courses to Arab students while studying, and interpreted in Arabic, English, and Japanese.

WEB ADMINISTRATOR, SOCIAL MEDIA MANAGER & INTERPRETER | CUORE CO., LTD.

May 2018 - Sep 2018

- Developed the company website's front end, managed its social media, and interpreted in Arabic, English, and Japanese.

KEY PROJECTS & INITIATIVES

- **People Services Portal (ServiceNow):** Led the implementation of a centralized, SLA-driven HR service portal, defining processes and SLAs with process owners and replacing scattered email and Teams requests with trackable service.
- **PeopleGPT (v1 and v2):** Delivered NEOM's first internal AI chatbot (GPT-4) with a Microsoft partner at no cost to NEOM; v2 is now in pilot as an AI agent on Copilot Studio with SAP Joule integration.
- **PeopleHub (HR Knowledge Base):** Launched a SharePoint knowledge base for all policies and guidelines, with 164,000+ views from 8,100+ unique viewers who find answers in 1 min 17 sec on average; HR teams link it in their email signatures, and it is becoming PeopleGPT v2's live knowledge source.
- **Health Insurance Integrations (Tawuniya, BUPA):** Automated daily enrollment of new joiners and dependents into the insurer's systems, replacing manual spreadsheets on both sides; rebuilt it for BUPA after the provider change.
- **Document Management (OpenText):** Moved all employee documents from local storage to per-employee cloud folders, then automated onboarding document filing, with NDA filing now staged for OpenText integration.
- **NEOM HiPo Program, Japan:** Selected for Japanese fluency to lead 60 high-potential employees through the program, handling orientation, logistics, and interpretation with CEOs of major Japanese companies.

EDUCATION

B.Sc. in Software Engineering | Tokyo University of Technology, Japan

2014 - 2019

LANGUAGES

Arabic (Native) | English (Fluent) | Japanese (Advanced)
