SUMMARY

Saudi Digital Transformation professional focused on AI, HRIS, and strategic digitalization. As a People Technology Senior Specialist at NEOM, I lead initiatives that turn complex processes into intelligent, automated systems, aiming for a 70% automation rate and earning SAP's Best HCM Innovation & Automation Award in KSA.

EXPERIENCE

NEOM

People Technology Senior Specialist

Sep 2023 - Present · NEOM, Saudi Arabia

- Architected and led a comprehensive HR digitalization strategy aiming for a 70% automation rate through strategic platform unification and AI-driven automation
- Orchestrated multiple SAP SuccessFactors system restructures and automation initiatives, optimizing operational workflows and enhancing user experience
- Led enterprise-scale projects including PeopleHub revamp, survey platform migration, and international program organization for the NEOM HiPo Program in Japan
- Recipient of SAP's prestigious Best HCM Innovation & Automation Award (2024) for SuccessFactors implementation in Saudi Arabia

People Technology Specialist

Sep 2022 - Sep 2023 · NEOM, Saudi Arabia

- Pioneered PeopleGPT, an advanced AI assistant leveraging GPT technology to streamline HR policy guidance and query resolution
- Developed and deployed People Co-Pilot solution, enhancing employee onboarding and training experiences through intelligent automation
- Designed and implemented complex Legal Entity structures within SAP SuccessFactors for TONOMUS, OXAGON, and ENOWA subsidiaries
- Led Robotic Process Automation (RPA) initiatives, significantly reducing manual workload and improving process efficiency

People Technology Analyst

Jun 2021 - Sep 2022 · NEOM, Saudi Arabia

- Established the NEOM Authority organizational structure within SAP SuccessFactors, creating the foundation for enterprise-wide HR operations
- Executed comprehensive data integrity audits for HRIS systems, identifying and resolving critical discrepancies to ensure data accuracy
- Conducted in-depth analysis and optimization of HR technology processes, enhancing system performance and user satisfaction
- Implemented innovative solutions including an automated photobooth system for employee profile management and virtual reality technology for immersive onboarding experiences

People Technology Intern

Mar 2021 - Jun 2021 · Riyadh, Saudi Arabia

- Collaborated with cross-functional teams to diagnose and resolve user issues, contributing to enhanced system reliability and user satisfaction
- Conducted data analysis to ensure information integrity and accuracy across HR systems
- Assisted in the deployment and configuration of enterprise technology solutions, supporting organizational digital transformation initiatives

Misk Academy

Software Engineer Intern

Nov 2020 - Mar 2021 · Remote

Completed an intensive 480-hour project-based internship sponsored by the Ministry of Communication & Information Technology:

- Developed scalable full-stack applications utilizing Ruby on Rails, Python with Django, and Node.js with Express
- Engineered secure applications implementing MVC architecture patterns and RESTful API design principles
- Created responsive front-end applications using modern JavaScript frameworks including Angular and React
- Implemented complex data structures and algorithms, optimizing for performance using Big O notation analysis

Crystal Inspection Services

IT Manager

Oct 2019 - Jan 2020 · Jeddah, Saudi Arabia

- Directed all IT operations including infrastructure maintenance, performance monitoring, technical consultancy, and data security protocols
- Achieved significant cost reduction within three months by internalizing IT services and optimizing vendor relationships
- Facilitated cross-departmental communication by providing professional translation services for technical and business documentation between English and Arabic

Tokyo University of Technology

Collaborative Instructor - Computer Science

Mar 2016 - Mar 2019 · Tokyo, Japan

- Delivered comprehensive Computer Science curriculum for international students, covering programming fundamentals, web development, and research methodologies
- Provided specialized trilingual academic support through translation and interpretation services in Arabic, English, and Japanese
- Facilitated cross-cultural academic communication, enhancing educational outcomes for diverse student populations

株式会社クオーレ (Cuore Inc.)

Front End Developer, Social Media Manager & Interpreter

May 2018 - Sep 2018 · Tokyo, Japan

- Managed front-end development and maintenance of the company's corporate website, ensuring optimal user experience and functionality
- Developed and executed social media strategies to enhance brand visibility and promote product offerings across multiple platforms
- Facilitated international business communications through professional translation and interpretation services in Arabic, English, and Japanese
